GAP keeps you in the driver's seat

Congratulations! You're about to buy a vehicle. This is a big investment. How will you protect your asset, if something happens down the road?

Guaranteed Asset Protection (GAP), is a voluntary, non-insurance program that works with your standard car insurance. It protects the "gap" between the vehicle's value and the amount you still owe on your loan if your vehicle is stolen or totaled.

Protect your wallet

Once you drive off the lot, your vehicle is already worth less. Since most insurance companies base their claim payments on the current value of your vehicle, your loan or lease could be higher than the value of your vehicle in the event of a total loss.

Which means you could owe out-of-pocket money to pay off your loan.

GAP's key benefits

Whether you're buying a new or used vehicle, GAP can help relieve your worries — and the financial impact on your wallet — if the unexpected happens.

That's because it waives the difference between your primary insurance company's settlement — and the payoff of your loan balance, up to a certain loan to value maximum (LTV) and subject to limitations and conditions.¹

The LTV compares the total amount originally financed to the vehicle's value at the start of the loan. Included in this waiver is your insurance deductible, up to \$1,000.²

Please consult with your financing representative regarding application of the LTV limitation to your specific circumstances.

How GAP could work for you	
Example: You're in an accident and your one-year-old financed vehicle is a total loss and beyond repair.	
Your loan balance:	\$15,000
Your insurance company settlement based on your vehicle's market value at time of loss:	\$11,000
Your insurance deductible:	\$1,000
Total amount you owe without GAP:	\$5,000
Total amount you owe with GAP:	\$0

Vehicles GAP covers ³
